SUGGESTED TEST FOR PRESCRIPTION

NOFER or similar, automatic liquid soap dispenser with infrared activation system. Dimensions: support Ø 44, 120 depth (mm).

TECHNICAL DATA

- Main body made of chromed brass. Polish finished.
- Power supply: transformer. Optional with batteries.
- Dimensions: support Ø 44, 120 depth (mm).
- Soap plastic container capacity: 1000 ml. Refillable.
- Factory setting for 0.7 to 0.9 cc depending on the selected soap. The soap quantity can be changed using the soap dispenser's remote control.
- Maintenance: for cleaning use only neutral soap and water, then wipe dry with a clean cloth. When cleaning bathroom tiles or similar, the soap dispenser should be protected from any splattering of harsh cleansers.
- Wall mounted. Regular installation with the bottle below the lavatory or remote installation with bottle support kit to be secured to the wall.
