COSMIC

Stimulation, relaxation, comfort...
the bathroom reintroduces us to
ourselves through objects that
transcend the merely functional.

Activarse, relajarse, sentirse cómodo...
en el baño nos reencontramos con
nosotros mismos, a través de una
serie de objetos que trascienden lo
meramente funcional.

FOR ALL NEW PRODUCTS, PLEASE REQUEST US THE LAUNCH DATES.
PARA TODOS LOS NUEVOS PRODUCTOS, POR FAVOR CONSULTARNOS LAS FECHAS DE LANZAMIENTO.

Cosmic

We create design environments for bathrooms. We transform spaces into pleasant places with aesthetic functionality. A nonconformist and visionary personality that leads us to the constant search for innovation focused on the customer: To enhance and offer an expressive and quality product in order to exhort to renovate, complete and decorate the bathroom.

Creamos ambientes de diseño para el baño. Transformamos espacios en lugares armoniosos con funcionalidad estética. Una personalidad inconformista y soñadora que nos posiciona en la innovación constante enfocada al cliente: Destacar, ofrecer un producto con expresión y valor que invite a renovar, completar y decorar el cuarto de baño.

Cosmic around the world

Cosmic en el mundo

COSMIC

2 production centers.
2 centros de producción.

1985

Created in 1985 as a manufacturer of bathroom accessories.

Creada en 1985 como fabricante de accesorios de baño.

Go to the next level

New finishes Nuevos acabados

This makes for a total of seven finishes, including three brushed PVD finishes. PVD is one of the most revolutionary treatments in recent years thanks to the variety of colours available and its lasting results, which offer improved resistance to abrasion, scratching and corrosion.

Un total de 7 acabados, entre ellos 3 acabados cepillados en PVD. El PVD es uno de los tratamientos más revolucionarios en los últimos tiempos gracias a la variedad de colores que ofrece y a sus resultados más duraderos con una mayor resistencia a la abrasión, a las ralladuras y a la corrosión.

Chrome is a must in any catalogue and is the quintessential finish in the world of accessories. It offers durability, protects against corrosion, facilitates the cleaning process and boasts great versatility, allowing designers to create more varied, original designs.

El **chromo** como un "must" en cualquier catálogo, es el acabado por excelencia en el mundo del accesorio. Aporta durabilidad, protege contra la corrosión, facilita el proceso de limpieza y ofrece una gran versatilidad permitiendo crear diseños más variados y originales.

Matte finishes offer an alternative that is particularly on-trend in the interior design industry, providing parts with a resistant, lasting finish with a pleasing feel.

Los **acabados mate**, ofrecen una alternativa muy en tendencia en el sector del interiorismo proporcionando a las piezas un acabado resistente, duradero, y muy agradable al tacto.

Accessories | Accesorios

Cosmic is reviving one of the classics with an improved version of the **brushed stainless steel** finish that was very popular among advisors. With a smooth, uniform brushing technique, this innovation comes to life on a classic finish.

Cosmic revive uno de los clásicos con una versión mejorada del acabado **inox cepillado**, muy popular entre prescriptores. Con un cepillado suave y uniforme, es innovación sobre un acabado clásico.

BRUSHED GOLD PVD
ORO CEPILLADO PVD

PVD is an environmentally friendly technology through which stainless steel and titanium are linked at a molecular level to form a superficial metal alloy. Via electrolysis, the metal powder penetrates the previously treated materials' pores, becoming part of the object's composition itself, thus increasing its durability and providing much lighter coatings.

EL **PVD** es una tecnología respetuosa con el medio ambiente mediante el cual el acero inoxidable y el titanio se ligan a nivel molecular formando una aleación metálica superficial. A través de la electrólisis, el polvo de metales penetra en los poros de los materiales, previamente tratados, pasando a formar parte de la propia composición del objeto, aumentando la durabilidad y aportando recubrimientos mucho más ligeros.

More versatile Más versátil

Cosmic is growing one of its most comprehensive collections, **Architect S+**, with more than 25 different accessories designed to offer optimal functionality, adding four new finishes to its range to allow it to fit in with any style of bathroom. The new offering stands out by including a wide selection of finishes in many of its parts, turning the **Architect S+** collection into a range that is a safe bet, superior, sustainable, decisive and now more versatile than ever. Because **Cosmic is Innovation's Mind**.

Cosmic hace crecer una de sus colecciones más completas, **Architect S+**, con más de 25 accesorios diferentes pensados para ofrecer la máxima funcionalidad, incorporando en su gama 4 nuevos acabados para poder encajar en cualquier estilo de baño. La nueva propuesta destaca por incorporar en muchas de las piezas una gran variedad de acabados, convirtiendo a la colección **Architect S+** en una colección segura, superior, sostenible, resolutive y ahora, más versátil que nunca. Porque **Cosmic es Innovation's Mind**.

Architect S+ has successfully passed the high demanding tests of long last durability and resistance to extreme uses (static charge or impact testing) to assure long last durability of the product. All products come with 10 years warranty.

Toda la gama **Architect S+** ha superado con éxito exigentes tests de durabilidad y resistencia a usos extremos (cargas estáticas o test de impacto), para asegurar una larga vida al producto. Todos los artículos tienen 10 años de garantía

Fixing disc (wall plate)

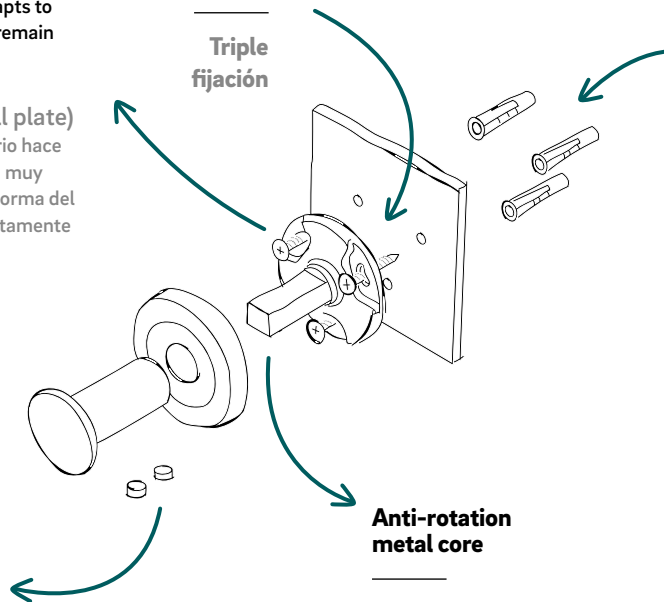

The fiberglass mix makes the fixing disc highly resistant. It adapts to the shape of the screw to remain completely fixed.

Disco de fijación (wall plate)

La mezcla con fibra de vidrio hace que el disco de fijación sea muy resistente. Se adapta a la forma del tornillo, quedando completamente fijado.

Triple fixing

Triple fijación

Two Allen carriage bolts

that are hidden and prevent extraction of the accessory.

Dos tornillos ciegos allen

que quedan ocultos y privan la extracción del accesorio.

Fischer DuoPower wall plugs.

Strong and universal: anchoring with superior performance. This is the **first smart anchoring system** that decides whether to expand, fold or knit together depending on the wall's material.

Tacos Fischer DuoPower:

Fuerte y Universal: el anclaje con un rendimiento superior. Es el **primer anclaje inteligente** que decide si se expande, se pliega o se anuda según el material de la pared.

Next has successfully passed the high demanding tests of long last durability and resistance to extreme uses (static charge or impact testing) to assure long last durability of the product. All products come with 10 years warranty.

Toda la gama **Next** ha superado con éxito exigentes tests de durabilidad y resistencia a usos extremos (cargas estáticas o test de impacto), para asegurar una larga vida al producto. Todos los artículos tienen 10 años de garantía

Next emerged with the aim of taking design to any type of bathroom. Created with people in mind, it offers a dual fixing system with an efficient double-sided adhesive. This is in addition to two different finishes (**Chrome** and **Soft Black**), allowing it to fit in with all kinds of styles. **Next** is a functional collection with a designer touch that will suit all budgets.

Next nace con el objetivo de poder llevar diseño a cualquier tipo de baño. Diseñada pensando en las personas, ofrece un sistema de fijación **Dual** con un eficiente adhesivo de doble cara. Y dos acabados diferentes, **cromado y negro Soft**, para encajar en todo tipo de estilos. Una colección funcional con un toque de diseño para todo tipo de presupuestos.

Start

Design by **Cosmic Studio**

Start has successfully passed the high demanding tests of long last durability and resistance to extreme uses (static charge or impact testing) to assure long last durability of the product. All products come with 10 years warranty.

Toda la gama **Start** ha superado con éxito exigentes tests de durabilidad y resistencia a usos extremos (cargas estáticas o test de impacto), para asegurar una larga vida al producto. Todos los artículos tienen 10 años de garantía

Start is designed for people who appreciate simplicity in design. Each piece in this collection has a smooth, stylish shape that masterfully combines with a variety of modern settings. This is a full range of bathroom accessories comprising shower caddies with a removable tray, available in two finishes, chrome and matte black.

Start está diseñada para personas que aprecian la simplicidad en el diseño. Cada pieza de esta colección tiene una forma suave y elegante que combina a la perfección con una variedad de ambientes contemporáneos. Colección completa de accesorios para el baño que integra jaboneras de ducha con bandeja extraíble, disponible en dos acabados cromo y negro mate.

L'Avenir

Design by Ricard Ferrer + OiKo

L'Avenir

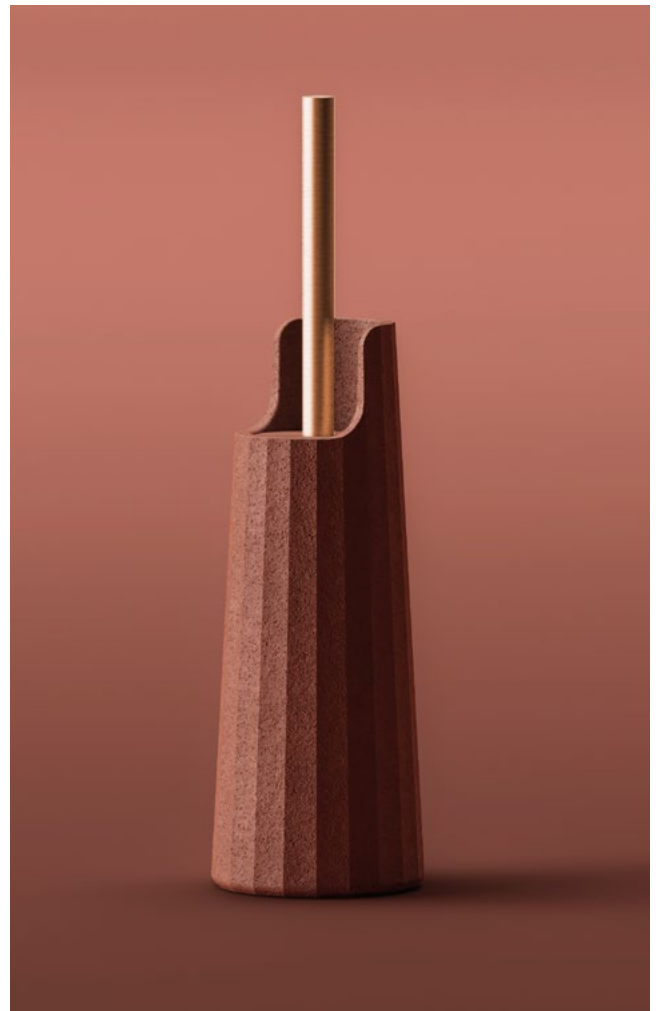

Design by Ricard Ferrer + OiKo

L'Avenir is a collection of accessories by Industrias COSMIC, designed by Ricard Ferrer and developed in conjunction with OiKo Design Office. The use of up to 96% recycled plastics in its production results in the creation of a new material with colours and textures never seen before.

L'Avenir, es una colección de complementos de COSMIC diseñada por Ricard Ferrer y desarrollada conjuntamente con OiKo design Office. El empleo en su fabricación de hasta un 96% de plásticos reciclados resulta en la creación de un nuevo material con colores y texturas nunca vistos.

L'Avenir introduces a new form of awareness to COSMIC by using recovered materials and textures that redefine the value of objects, calling for a new culture of responsible, sustainable consumption. L'Avenir arose from the need to declare a firm environmental commitment, acknowledging that daily objects should be designed by using materials and resources responsibly, and creating a circle that should be followed and which leads to a balanced future.

L'Avenir introduce en COSMIC, una nueva sensibilidad, a partir de materiales recuperados y texturas que redefinen el valor de los objetos, apelando a una nueva cultura de consumo responsable y sostenible. L'Avenir se plantea desde la necesidad asumir un compromiso firme con el medio ambiente, entendiendo que los objetos cotidianos deben diseñarse haciendo un uso responsable de materiales y recursos, un círculo que debe transitarse y que apunta a un futuro en equilibrio.

Essentials

Essentials

Cosmic is launching its new wall mirror with LED light and an exclusive design based on current market requirements and trends. With two arms to help move it, this mirror can be connected either with a direct power connection or a power cable. It boasts a 5x magnifying feature and both its temperature and power can be adjusted.

Cosmic lanza su nuevo espejo de pared con luz LED y diseño exclusivo basado en las necesidades y tendencias del mercado. Con dos brazos para facilitar su maniobrabilidad, puede ir tanto a conexión de potencia directa como vía cable de toma a corriente. Tiene un aumento de x5 y puedes regular tanto la temperatura como la potencia.

Essentials has successfully passed the high demanding tests of long last durability to assure long last durability of the product. All products come with 3 years warranty.

Essentials ha superado con éxito exigentes tests de durabilidad para asegurar una larga vida al producto. Todos los artículos tienen 3 años de garantía.

Lagoon

Design by Cosmic Studio

Lagoon

Design by Cosmic Studio

Lagoon is the new collection of furniture, washbasins and mirrors by Cosmic aimed at fans of authenticity. Design originality is as important as the unique nature of Cosmic's values. Lagoon. Eternal and durable.

Lagoon es la nueva colección de muebles, lavabos y espejos de Cosmic dirigido a los amantes de lo auténtico. Tan importante es la originalidad del diseño como la singularidad de los valores de Cosmic. Lagoon, eterna y duradera.

HIGH CAPACITY STORAGE

Under-sink cabinets and the tall cabinet with their distinctive coated handle, allowing for easy opening and closing. The inside of the top drawer has a cut-out for the siphon and an organiser, a solution that allows you to make full use of the space inside bathroom furnishings. There is also personalised detailing on the wood with the Cosmic logo. Interiors in anthracite finish.

GRAN CAPACIDAD DE ALMACENAJE

Los muebles bajo lavabo y el armario alto con su distintivo tirador lacado mate se mimetiza totalmente con el conjunto del mueble y permite una fácil apertura y cierre. El interior del cajón superior dispone de recorte salva sifón y un organizador, una solución para aprovechar el espacio interior de los muebles de baño. Hay que destacar el detalle de madera marcado Cosmic. Interiores en acabado antracita.

TALL COLUMN WITH ONE DOOR

Cabinet with extensive storage space and a characteristic front that imitates a delicate thickness of 6 mm.

Door opens to the right or left, non-reversible. It has four thick glass shelves supported by a metal bracket and one fixed wooden shelf that offers the piece stability.

COLUMNA ALTA CON UNA PUERTA

Armario con gran espacio de almacenamiento y un frente característico que simula un delicado espesor de 6mm.

La apertura de la puerta puede ser derecha e izquierda, pero no son reversibles. En su interior dispone de 4 estantes de cristal de gran espesor sujetos por una abrazadera metálica y un estante de madera fijo que da estabilidad al conjunto.

ROUND-EDGE

The furniture's surface finishes and countertops with built-in washbasins help to increase the perception of comfort, since matte colour coatings and the Solid Surface material of the countertops have a silky texture that is pleasant to the touch.

The exclusive, designer handle blends in perfectly with the piece's organic shapes. Great length and reduced thickness are highlighted by the light when shone on its subtle, frontal groove.

CANTOS REDONDEADOS

Los acabados superficiales de los muebles y encimeras con lavabos integrados ayudan a que la percepción de confort sea mayor, ya que los lacados de colores mates y los materiales Solidmat y Gelmat en la encimeras poseen una textura sedosa y agradable al tacto.

El tirador de diseño exclusivo se integra a la perfección con la forma orgánica de la serie. Gran longitud y espesor reducido para una apertura fácil de los cajones y armario.

The Lagoon collection wins people over with its harmonious composition that marries traditional stylistic guidelines with modern tendencies. The rounded edges and minimal thicknesses of each feature ensure the set is perceived as a cohesive piece that is accommodating and convenient to use given the scarcity of sharp edges. The effect of the light used highlights all of these properties.

La colección Lagoon convence con su composición armónica, que une directrices estilísticas tradicionales y modernas. Los cantos redondeados o romos y los espesores mínimos en cada elemento hacen que el conjunto se perciba como una pieza cohesionada, amable y confortable en su uso por la escasez de aristas vivas, y en el que la luz mediante su incidencia se ocupa de destacar todas estas propiedades.

This is an extremely versatile collection that offers multiple furnishing combinations with built-in washbasin or countertop basin, and storage options, allowing it to adapt to every requirement.

Colección muy versátil que ofrece múltiples combinaciones de muebles con lavabos integrados o lavabos sobre encimera y opciones de almacenaje, para adaptarse a todas las necesidades.

Construction detail of the fronts, sides, handle and bullnose of the built-in washbasin. Slim fronts, machined with an edge simulating a visible thickness of 6 mm.

Detalle constructivo de los frentes, costados, tirador y canto redondeado o romo del lavabo integrado. Frentes Slim, mecanizados en canto simulando un espesor visto de 6 mm.

Countertop washbasin | Lavabos de sobre encimera

WASHBASIN LAGOON SOLIDMAT / LAVABO LAGOON SOLIDMAT

SOLIDMAT

The Solid Surface material is a mix formed by the polymerisation of reactive monomers and resins together with a high percentage of natural mineral loads. It features a satin-like, durable finish. This is a fireproof, compact, non-porous, hygienic and strong material. Available in solid matte white.

SOLIDMAT

Material Solid Surface, una mezcla formada por la polimerización de resinas y monómeros reactivos junto con un alto porcentaje de cargas minerales naturales. Destaca por su tacto satinado y su durabilidad. Es un material ignífugo, compacto y no poroso, higiénico y resistente. Disponible en blanco mate homogéneo.

VITREOUS CHINA WASHBASIN LAGOON / LAVABO LAGOON CERÁMICA

VITREOUS CHINA

Countertop washbasins made with high-quality glazed ceramics available in three matte colours: white, sand and grey. The mark-free glaze has high chemical resistance and a smooth texture. No overflow.

CERÁMICA

Lavabos de sobre encimera fabricados con cerámica esmaltada de alta calidad disponible en 3 colores mate, blanco, arena y gris. Un esmalte de buena resistencia química, libre de manchas y textura lisa. Sin rebosadero.

VITREOUS CHINA WASHBASIN LAGOON / LAVABO LAGOON CERÁMICA

Exclusive built-in washbasin with a large interior basin and round edges made in Solid Surface. Built-in click-clack plug made with the same material. Built-in washbasin with overflow.

Lavabo integrado exclusivo con un gran seno interior y cantos romos fabricado en Solidmat. Válvula click-clack integrada fabricada con el mismo material. Dispone de rebosadero.

GELMAT WASHBAIN / LAVABO GELMAT

GEL COAT WITH SUPER-MATTE EFFECT

This is an innovative manufacturing technique that consists of a resin and mineral load compound enriched with an outer gel coat layer. This outer coating grants it a chalk-paint texture and super-matte effect, as well as added durability and resistance. What makes this process innovative is the way the mould is made to obtain a smooth texture free from imperfections. Available in matte sand.

GELMAT CON TEXTURA SUPER MATE

Una innovadora técnica de fabricación que consiste en un compuesto de resinas y cargas minerales, enriquecidos con una capa exterior de Gel Coat. Este recubrimiento exterior le confiere textura de pintura a la tiza efecto super mate, aportando un extra de dureza y resistencia. Lo innovador en este proceso consiste en la manera de fabricar el molde para obtener una textura lisa sin imperfecciones. Disponible en color arena mate.

Lagoon

Design by Cosmic Studio

Mirrors with ambient LED lighting encapsulated in a neon tube, with an elastic diffuser and invisible LED points to offer more uniform perimeter lighting. Mirror with polished edge and radius of 10 mm following the same rounded design language as the countertops and furniture to achieve a cohesive set.

Espejos con luz led ambiental encapsulada en tubo de neón, con difusor elástico y puntos de led invisibles, ofrece una iluminación perimetral más uniforme. Espejo con canto pulido de radio 10 mm siguiendo el mismo lenguaje de diseño como de las encimeras y mobiliario para conseguir un conjunto cohesionado.

HETTICH AVANTECH YOU GUIDES

Exceptional cushioning with gentle closure.

Drawer with Hettich Avantech YOU metal structure, with depth of 400. It can support up to 40 kg of weight and can be fully removed. Soft Close silent closure, which allows adjustment. The adjustment options (height, side and incline) of the Avantech YOU drawer system allows you to perfectly align the fronts.

It has no covers or holes that alter the side's clean, straight finish. The framework remains on a second plane, built into the piece as just another component in its slim design. The outer cover slides. The exclusive sliding mechanism allows the front to be released and adjusted vertically and laterally.

GUÍAS HETTICH AVANTECH YOU

Amortiguación excepcional, con cierre suave.

Cajón de costilla metálica Hettich Avantech You, con fondo 400 mm. Aguanta hasta 40 Kg de peso y extracción total. Cierre silencioso Soft Close, que permite regulación. Las opciones de ajuste (altura, lateral e inclinación) del sistema de cajones Avantech YOU permiten crear una alineación de fugas perfecta de los frentes. Sin tapas, ni agujeros que alteren el acabado limpio y recto del costado. El herraje permanece en segundo plano, integrado en el mueble como un elemento más del delgado diseño. La tapa exterior es deslizante. El exclusivo mecanismo de deslizamiento permite soltar el frente y ajustarlo en altura y lateralmente.

MDF WOOD

Round-edge furniture and countertops.

Wooden countertops made in MDF given matte finishes and treated with a high-resistance coating. Of its eight coated finishes, four of them (blue, grey, terracotta and green) are colours developed using waterborne coating processes that are non-toxic and more environmentally friendly. The new Lagoon collection strengthens the company's commitment to sustainability. Under-sink cabinet with two suspended drawers that have edges glued using state-of-the-art thermofusion or PUR (polyurethane reactive) glues, offering improved resistance to humidity given the better seal of the edge.

MADERA MDF

Muebles y encimeras de canto romo.

Encimeras de madera fabricadas en MDF lacadas en acabados mate tratadas con un recubrimiento de alta resistencia. De los 8 acabados lacados, 4 de ellos, azul, gris, terracota y verde, son colores desarrollados con procesos de lacado al agua, sin toxicidad y más respetuosos con el medio ambiente. La nueva colección Lagoon refuerza el compromiso de la compañía con la sostenibilidad. Mueble bajo lavabo de 2 cajones suspendido con cantos encolados con colas de termofusión o PUR (poliuretano reactivo) de última generación que aporta mayor resistencia a la humedad, debido al mejor sellado del canto.

Lagoon has successfully passed the high demanding tests of long last durability to assure long last durability of the product. All products come with 5 years warranty.

Architect

Design by Cosmic Studio

Architect: minimalist fittings for a modern bathroom. Their refined design with basic and rounded lines ensures a timelessness and universality. A full bathroom fitting solution to be combined with Cosmic furniture, washbasins, mirrors and screens.

Architect, grifería minimalista para un baño moderno. Su diseño depurado, con líneas básicas y redondeadas, garantizan atemporalidad y universalidad. Solución completa de grifería para combinar con muebles, lavabos, espejos y mamparas Cosmic.

SINGLE-LEVER WASHBASIN MIXER

Single-lever washbasin mixer with cold start.

Features a 5 l/min flow limiter.

Taps with no pop-up drain rod.

"Made with alloys included in the 'European Positive List' (for non-migration of materials hazardous to water)".

Cartridge of ceramic discs $\varnothing 35$ mm.

Includes flexible supply connections of 3/8".

3F SQUARE SHOWER HOSE

With three functions: Massage, Rain, Soft.

THERMOSTATIC SHOWER MIXER

Includes 38°C SafeStop safety device. Bathroom fittings with cold-touch technology to avoid burns. Built into the thermostat and thermal covering of their parts, they ensure no burns are caused when they are touched.

3F SQUARE SHOWER KIT

Includes: Shower bar. Shower hose of 12x12 cm with three functions: Massage, Rain, Soft. Flexion of 170 cm. Sliding support.

THERMOSTATIC SHOWER COLUMN

Includes: Sprinkler of 22 cm. Extendible shower bar of 30 cm.

Flexion of 170 cm. Shower hose $\varnothing 10$ cm. One function.

Built-in shower hose bracket.

Includes 38°C SafeStop safety device. Bathroom fittings with cold-touch technology to avoid burns. Built into the thermostat and thermal covering of their parts, they ensure no burns are caused when they are touched.

MONOMANDO LAVABO

Mezclador monomando con apertura en frío. Incorpora limitador de caudal a 5 l/min. Grifos sin varilla de drenaje pop up.

Fabricado con aleaciones incluidas en la "European Positive List" (para la no migración de materiales peligrosos al agua)".

Cartucho de discos cerámicos de $\varnothing 35$ mm.

Incluye enlaces de alimentación flexible de 3/8".

DUCHA DE MANO 3F SQUARE

Incorpora 3 funciones: Massage, Rain, Soft.

MEZCLADOR TERMOSTÁTICO PARA DUCHA

Incluye dispositivo de seguridad 38°C SafeStop. Grifería con tecnología cold-touch para evitar quemaduras. Incorporada en el termostato y el recubrimiento térmico de sus piezas, evitan para siempre las quemaduras al tocar el grifo.

KIT DUCHA 3F SQUARE

Incluye: Barra de ducha. Ducha de mano de 12x12 cm con 3 funciones: Massage, Rain, Soft. Flexo de 170 cm. Soporte deslizante.

COLUMNA DE DUCHA TERMOSTÁTICA

Incluye: Rociador de 22 cm. Barra de ducha extensible 30 cm.

Flexo de 170 cm. Ducha de mano de $\varnothing 10$ cm. 1 función. Soporte para ducha de mano integrado.

Incluye dispositivo de seguridad 38°C SafeStop. Grifería con tecnología cold-touch para evitar quemaduras. Incorporada en el termostato y el recubrimiento térmico de sus piezas, evitan para siempre las quemaduras al tocar el grifo.

BR_RECANVIS_EXP%20EN-ES%20SP%2023.pdf](https://www.icosmic.com/tarifas/recambios/BR_RECANVIS_EXP%20EN-ES%20SP%2023.pdf)

Materials

FLOAT GLASS (Flat shelves and washbasin tops)

Made using standard FLOAT type glass that has undergone no subsequent treatment other than the necessary machining, cutting and polishing. Therefore, it is a naturally fragile material and despite the fact that the most appropriate density has been used in every case, special care should be taken when using it. 100% recyclable.

PRESSED GLASS

(Most of the glasses and soap dishes in our collection)

A very similar material to the FLOAT glass used for the shelves, glasses, and soap dishes, etc. This molten glass is shaped in a mould. These products should be used and cared for in the same way as the shelves and washbasin tops. 100% recyclable.

TEMPERED GLASS

This material is manufactured similarly to FLOAT glass, but also undergoes a thermal processing to increase its resistance. 100% recyclable.

MIRRORS

Sheet of glass covered by layers of silver, copper and, finally, paint. The use of topquality raw materials in conjunction with the correct mirror manufacturing process guarantee maximum protection against stains caused by corrosion.

SYNTHETIC RESIN

Is a technologically advanced and unique compound, made up of high percentage of mineral extenders from nature (ATH derived from bauxite) as well as a small one of high-pureness polyester and acrylic polymers; therefore, it is an inert, hypoallergenic and non-toxic material. 100% recyclable, practically fireproof (class 1), strongly UV-resistant, solid and nonporous, hygienic and healthy, resistant and agreeable to the touch for its velvety and natural.

CRISTALPLANT BIOBASED®

Material made up of 50% natural minerals (aluminium trihydrate -ATH- derived from bauxite) and 50% high-purity polyester bioresins. Plant resins: this is the first ecologically sustainable solid surface, consisting of resins of plant origin and extremely pure natural minerals. It is an inert, hypoallergenic, non-toxic material. It is practically inflammable, certified Class 1 fire resistance. It is highly resistant to ultraviolet rays. It regains its original appearance with just soapy water and a scrubber.

PHENOLIC RESIN

This material is a high pressure laminate (HPL) with a decorative surface. Typically the superficial layer consists of thermo-hardened resin-treated plywood. The special texture and durability of this material makes it very resistant to impact and scratching, and it is completely waterproof. Specially designed for use in places where hygiene is of the utmost importance, this material can be cleaned frequently with active detergents, chemical agents, or organic solvents.

VENEERED WOOD

MDF boards + oak veneer varnished with fine quality materials to prevent yellowing. Oak wood is a material that is very resistant to biological agents (fungus and insects). As this kind of material is natural wood, it may present knots and color variation.

LACQUERED WOOD

This material is made from double-faced MDF plywood. Its high quality varnish provides a bright or matte finish and prevents yellowing. Due to its delicate lacquered surface, we recommend the use of mild cleaning products, avoiding solvents or any abrasive substances.

PVC

Polyvinyl chloride (PVC) is a polyvinyl chloride polymer used to manufacture numerous products and is also applied in making boards, panels, windows, shutters, etc. Its durability, colour stability, watertightness and moisture proof properties make PVC an ideal material for bathroom and kitchen furniture. The material can be cleaned quickly and easily with just soap and water, although its resilience means most cleaning products can also be used.

PLASTIC

We use various technical plastics with different features to meet the manufacturing and aesthetic needs of each product. These include ABS (with or without chrome), PP, PA, PE, PC, PS, etc.

RECYCLED PLASTIC

The material is a formulation comprised of 60% post-consumption waste from the inside of fridges, 30% remains generated from manufacturing yoghurt packaging, and 10% rice husks to give the product the resistance and appearance required for this form of use. These values are approximate and may vary depending on the starting point, since recycled materials' properties always fluctuate.

ACRYLIC GLASS

The polymethylmetacrylate (PMMA) is known as one of the "engineering plastics", and is obtained through the polymerisation of methyl methacrylate. It stands out from other plastics due to the fact that it is impact resistant, weather resistant—as it does not undergo any significant ageing in ten years of outdoor exposure—resistant to UVA rays and scratch resistant. Due to its absolute transparency (it is the most transparent plastic), it is most commonly used in vehicle headlights, optics, medicine or partition panels. For use in architecture and decoration, it is lighter than glass and provides greater resistance to impact, meaning it can be a good substitute in many situations.

STAINLESS STEEL

It is an alloy of iron and carbon. Steel maintains the iron hardness characteristics. This steel has a special chrome treatment against the rust and oxidation. The used alloys are SS201 & SS304.

BRASS OR SIMILAR ALLOYS (glossy chrome and matt chrome)

A copper and zinc alloy—this is one of the non-ferrous metals, the proportion of which varies according to its use. It offers greater malleability than both copper and zinc separately, and it is easily refined which allows for a high level of design customization.

ALUMINUM

Aluminium alloy. May be presented as solid, extruded and calibrated. Aluminium is an important metal for numerous industries, such as the automotive industry where it is most common. It is generally a soft metal with low melting points.

GLASS-LINED STEEL (VIT-TECH)

Cutting-edge, 100% recyclable, non-porous and hygienic material made of fired pre-enamelled sheet steel. The vitreous enamel withstands corrosion, high temperatures and chemical agents. This durability means it can be used for a wide range of functional applications in bathtubs, shower trays and washbasins, as well as for ovens and coatings. It is an easy to clean material that does not require special cleaning products.

TECKSTONE

Advanced formula composed by natural minerals (calcium carbonate and quartz) mixed with resin. The surface is covered by GELMAT Premium Maxguard™ film, with plastic fibre and polymer, which provides the needed durability and resistance for an intensive daily use. It is a solid surface with excellent physic-mechanical properties that supplies important design possibilities. Its capacity of moulding allows reproducing forms with a great precision and with less curvature radius. Teckstone is very hard, resistant and compact; being a non porous material and without angles, it is very easy to maintain, the stains can be eliminated without effort and it is easy to clean.

MARBLE

Carrara Marble. Extracted from Italy's Tuscan quarries, each piece of marble is different and each stone has its own unique characteristics. Its white background has distinctive light blue-grey veins running through its surface.

Marquina Marble. Elegant and classic, each piece of marble is different and every stone has its own characteristics. Extracted from the quarries sited in Marquina (Vizcaya), it is characterized by its white veins on the black stone. The less veins it has, more appreciated is.

Brescia Marble. (Brown matt and glossy) from the region of Lombardy (Italy). It is considered as one of the most sumptuous Italian marble.

PORCELAIN

Ceramic product obtained from a sophisticated paste made up of kaolin, feldspar and quartz. Porcelain is treated with a vitrified top finish for surface hardness, colour and sheen. It is non-porous and hygienic, which makes it suitable for use in the bathroom. The vitrified finish means that it can be cleaned with any bathroom-specific product.

VITREOUS CHINA

The washbasin is made in a traditional way, it is characterized by high durability, resistance to abrasion and chemical agents.

FÉNIX®

Soft touch material and high performance: micro-scratch thermal reparability, anti-fingerprint, scratch resistance, high resistance to solvents and low light reflectivity. FENIX® products are made of paper (more than 60%) and thermosetting resins (30-40%). They are created through a pressure process in which heat and pressure are applied simultaneously to obtain a homogeneous non-porous product. The core structure is made of paper, impregnated with thermosetting resins. The outer surface is treated with the latest generation acrylic resins, hardened and set using the Electron Beam Curing process. It does not require any special maintenance, just a damp cloth with warm water or mild detergents. To remove the most common stains the surface can be cleaned with just warm water and a non-abrasive cloth. If the residue is old or has hardened, use a magic eraser sponge or a soft cloth to remove it. Always rinse thoroughly to remove detergent with clean, preferably warm water. Tests have shown that the removal of superficial micro-scratches using a "magic sponge" takes place both immediately and after 24 hours.

SOLIDMAT

A solid surface with a high percentage of natural mineral deposits. It stands out for its glossy feel and its durability. It is a fireproof material, compact and non-porous and both hygienic and resistant. Available in solid matt white.

GELMAT

Gel coat with chalk-paint texture and super-matte effect. This is an innovative manufacturing technique that consists of a resin and mineral load compound enriched with an outer gel coat layer. This outer coating grants it a chalk-paint texture and super-matte effect, as well as added durability and resistance. What makes this process innovative is the way the mould is made to obtain a smooth texture free from imperfections.

CLEANING INSTRUCTIONS

Clean with a liquid domestic cleaner or with soap suds. Afterwards rinse with clear water and polish with a cloth. Do not use any cleaning agents containing acid or scouring agents. Damage caused by improper treatment is not subject to our guarantee.

Materiales

VIDRIO FLOAT (Estantes y encimeras)

Realizado con vidrio tipo FLOAT estándar sin ningún otro tratamiento posterior más que la mecanización, corte y pulido necesarios. Se trata, pues, de un material que por su propia naturaleza es frágil y a pesar de que en cada caso se ha utilizado el espesor más adecuado, debe tenerse un especial cuidado en su uso. 100% reciclable.

VIDRIO PRENSADO (Vasos y jaboneras de la mayoría de nuestras series)

Material muy similar al vidrio FLOAT utilizado en estantes, vasos, jaboneras... Este vidrio fundido es conformado en un molde. El uso y cuidados deben ser los mismos que para estantes y encimeras. 100% reciclable.

VIDRIO TEMPLADO

Vidrio FLOAT sometido a tratamiento térmico para aumentar su resistencia. 100% reciclable.

ESPEJOS

Plancha de vidrio sobre la que se aplica una capa de plata, cobre y finalmente pintura. El uso de materia prima de primera calidad, unido a un correcto proceso de fabricación de los espejos, aseguran la mayor protección contra las manchas por corrosión.

RESINA SINTÉTICA

Es un material compuesto tecnológicamente avanzado y único, formado por un porcentaje elevado de minerales naturales (trihidrato de aluminio -ATH- derivado de la bauxita) y un bajo porcentaje de polímeros poliésteres y acrílicos de gran pureza; se trata, por lo tanto, de un material inerte, hipoalérgico y no tóxico. Es un material que puede reciclarse al 100%, prácticamente ignífugo (clase 1), con una óptima resistencia a los rayos ultravioletas; es compacto, no poroso, higiénico, resistente y agradable al tacto gracias a su acabado aterciopelado, similar al de la piedra natural.

CRISTALPLANT BIOBASED®

Material compuesto formado por un 50% de minerales naturales (trihidrato de aluminio -ATH- derivado de la bauxita) y un 50% de biorresinas de poliéster de gran pureza. Es el primer solid surface eco sostenible que deriva de materias primas resinosas de origen vegetal, procedentes de cultivos certificados, mezcladas con minerales naturales de extrema pureza. Es un material inerte, hipoalérgico y no tóxico. Es prácticamente ignífugo, con certificado de resistencia al fuego Clase 1. Presenta una óptima resistencia a los rayos ultravioletas. Puede recuperar completamente su aspecto original utilizando simplemente agua jabonosa y estropajos abrasivos.

RESINA FENÓLICA

La Resina Fenólica o Stratificato es un laminado de alta presión (HPL) con superficie decorativa. En general, la capa superficial está constituida por una superficie dura, basada en resinas de melamina, mientras que el grueso está constituido por un contrachapado impregnado de resina termo endurecida que le confiere al material una excepcional resistencia al impacto. Su especial textura y su durabilidad proporcionan una excelente resistencia al rayado. Gracias a su superficie perfectamente impermeable es un material resistente al desgaste, al agua y al vapor.

MADERA CHAPADA

Tableros de DM + chapa de roble barnizado con materiales de primera calidad que evitan el amarillamiento. La madera de roble es un material muy resistente a los agentes biológicos (hongos e insectos), al ser una madera natural puede mostrar nudos y presentar variaciones de color entre piezas.

MADERA LACADA

Tablero DM melaminado dos caras y lacado en acabados brillo y mate con barnices de primera calidad resistentes y que evitan el amarillamiento. Las superficies lacadas son delicadas y deben ser tratadas y limpiadas cuidadosamente, utilizando productos específicos para estas superficies. No usar nunca disolventes o productos abrasivos.

PVC

El cloruro de polivinilo (PVC) es un polímero de cloruro de vinilo que se emplea para la fabricación de multitud de productos, encontrando aplicación en la realización de tableros, paneles, ventanas, persianas, etc. La larga durabilidad, estabilidad del color, estanqueidad al agua y resistencia a la humedad, son las características que hacen del PVC un material idóneo para muebles de baño y de cocina. La limpieza de este material es fácil y rápida y se realiza con agua y jabón, aunque por su resistencia permite el empleo la mayoría de productos de limpieza.

PLÁSTICO

Cosmic utiliza plásticos técnicos de distintas características en función de las necesidades de fabricación y estéticas de cada producto o pieza. Entre los plásticos utilizados están: ABS (cromado o no), PP, PA, PE, PC, PS, etc.

PLÁSTICO RECICLADO

El material es una formulación compuesta por un 60% residuos posconsumo procedente del interior de neveras, un 30% de restos de fabricación de envases de yogur y un 10% de cáscara de arroz que dota de la resistencia y el aspecto necesario para una aplicación como esta. Los valores son aproximados y pueden variar dependiendo de la partida ya que los materiales reciclados siempre presentan una oscilación de las propiedades.

CRISTAL ACRÍLICO

El Polimetilmetacrilato (PMMA) es conocido como uno de los "plásticos de la ingeniería", se obtiene de la polimerización del metacrilato de metilo. Destaca frente a otros plásticos por la resistencia a los impactos, a la intemperie, ya que no sufre un envejecimiento apreciable en diez años de exposición exterior y a los rayos UVA, y por la resistencia al rayado. Por su transparencia máxima (es el plástico más transparente), las funciones más habituales van desde los faros de los vehículos, la óptica, la medicina o mamparas separadoras. Para su uso en la arquitectura y decoración se beneficia de un peso menor al del vidrio y mayor resistencia a impactos por lo cual puede ser un buen sustituto en muchas ocasiones.

ACERO INOXIDABLE

Aleación de hierro con carbono que conserva las propiedades de dureza del hierro. Se trata de un acero con un tratamiento especial de cromo, contra la corrosión y oxidación. Las aleaciones utilizadas son la SS303 y SS304.

LATÓN O ALEACIONES ANÁLOGAS (cromo brillante y cromo mate)

Aleación de cobre y zinc, es uno de los metales no férricos, cuya proporción varía en función de su aplicación. Destaca su maleabilidad, más alta que la del cobre y zinc por separado, y fácil pulido lo cual permite un alto grado de adaptación en el diseño de las piezas.

ALUMINIO

Aleación de aluminio. Se puede presentar como macizo extrusionado, estirado y calibrado. El aluminio es un metal importante para una gran cantidad de industrias, como la del automóvil, donde se utiliza habitualmente. Tiende a ser blando y presenta puntos de fusión bajos.

ACERO VITRIFICADO (VIT-TECH)

Material tecnológicamente avanzado y 100% reciclable que nace de la cocción de una superficie de acero esmaltada previamente. Es un material no poroso, higiénico y resistente a la corrosión, a las altas temperaturas y a agentes químicos debido a la naturaleza vítrea del esmalte. Esta característica le confiere una gran dureza permitiendo una amplia gama de aplicaciones en bañeras, platos de ducha y lavabos así como hornos y revestimientos. Es un material de fácil limpieza que no requiere la utilización de productos de limpieza específicos.

TECKSTONE

Formulación avanzada compuesta de minerales naturales (carbonato de calcio y cuarzo) mezclados con resina. La película GELMAT Premium Maxguard™, con fibras de plástico y polímeros, recubre la superficie proporcionando la durabilidad y resistencia que necesita el uso diario intensivo. Se trata de una superficie sólida con excelentes propiedades físico-mecánicas que ofrece grandes posibilidades de diseño. Su capacidad de moldeo permite reproducir formas con gran precisión y con menores radios de curvatura. Teckstone es muy resistente, compacto y de gran dureza. Al ser un material no poroso y carente de juntas, su mantenimiento es muy sencillo, las manchas se eliminan sin esfuerzo y es de fácil limpieza.

MÁRMOL

Mármol Carrara (Blanco mate y brillo). Extraído de las canteras de la Toscana italiana, cada pieza de mármol es diferente y cada piedra tiene sus propias características. Con fondo blanco tiene distintivas vetas de color azul grisáceo claro repartidas por toda la superficie.

Mármol Marquina (negro mate y brillo). Elegante y clásico, cada pieza de mármol es diferente y cada piedra tiene sus propias características. Se extrae de las canteras en Marquina (Vizcaya) y se caracteriza por sus vetas de color blanco sobre la piedra negra. Cuantas menos vetas, más apreciado.

Mármol Brescia (marrón mate y brillo). Extraído de las canteras de la región de Lombardia (Italia). Considerado uno de los mármoles italianos más suntuosos.

PORCELANA

Producto cerámico que se obtiene a partir de una pasta muy elaborada compuesta por caolín, feldespato y cuarzo. La porcelana es tratada con un acabado final vitrificado que da a la superficie la dureza superficial, color, brillo, no porosidad e higiene idóneos para su uso en el baño. Este vitrificado permite limpiarla con cualquier producto destinado a la limpieza del baño.

CERÁMICA

El lavabo está hecho de forma tradicional, se caracteriza por una alta durabilidad, resistencia a la abrasión y agentes químicos.

FÉNIX®

Material suave al tacto de elevadas prestaciones: reparabilidad térmica de micro-arañazos, anti-huella digital, resistencia a los arañazos, alta resistencia a los disolventes y reflectancia mínima a la luz. Los productos de FENIX® están realizados de papel (más del 60 %) y de resinas termo endurecedoras (30-40 %). Están creados por un proceso de presión en el que el calor y la presión se aplican de manera simultánea para obtener un producto homogéneo no poroso. La estructura del núcleo está compuesta de papel, impregnado con resinas termo endurecedoras. La superficie exterior está tratada con resinas acrílicas de nueva generación, endurecidas y fijadas con el proceso Electron Beam Curing. No requiere ningún mantenimiento especial, solo un paño húmedo con agua templada o detergentes suaves. Para las manchas más comunes es suficiente con limpiar la superficie con agua templada usando un paño no abrasivo. Si los residuos son antiguos o se han endurecido, usar una esponja mágica o un paño suave para eliminarlos. Siempre enjuagar a fondo para eliminar el detergente con agua limpia, preferiblemente tibia. Las pruebas han demostrado que la eliminación de micro arañazos superficiales mediante "esponja mágica" tiene lugar tanto inmediatamente como después de 24 horas.

SOLIDMAT

Un solid surface con un alto porcentaje de cargas minerales naturales. Destaca por su tacto satinado y su durabilidad. Es un material ignífugo, compacto y no poroso, higiénico y resistente. Disponible en blanco mate homogéneo.

GELMAT

Gel coat con textura de pintura a la tiza efecto super mate. Una innovadora técnica de fabricación que consiste en un compuesto de resinas y cargas minerales, enriquecidos con una capa exterior de Gelcoat. Este recubrimiento exterior le confiere textura de pintura a la tiza efecto super mate, aportando un extra de dureza y resistencia. Lo innovador en este proceso consiste en la manera de fabricar el molde para obtener una textura lisa sin imperfecciones.

INSTRUCCIONES DE LIMPIEZA

Las superficies pueden limpiarse con productos de limpieza líquidos o con agua jabonosa. (Tener en cuenta las instrucciones de uso del fabricante de detergentes). A continuación aclarar con abundante agua y pulir con una gamuza. No utilizar productos de limpieza que contengan ácidos, vinagre o que sean abrasivos. No nos responsabilizaremos si los desperfectos se producen a causa de un manejo inadecuado.

Sales conditions

EXPORT GENERAL SALES CONDITIONS

- 1**

The sales of INDUSTRIAS COSMIC S.A.U. are ruled by the herewith detailed general sales condition and the delivery of any order implies the buyer's acceptance of these general conditions.
- 2**

The products can be modified, replaced or cancelled at any time and all information of any kind included in our catalogues, price lists or advertising materials are indicative.
- 3**

Orders received from customers or through our salesmen are always subject to our previous approval and are considered confirmed unless otherwise specified.
- 4**

No order accepted by INDUSTRIAS COSMIC, S.A.U. can be amended or cancelled without our approval. The customer, as far as he is concerned, cannot return any goods to us without our previous acceptance or consent.
- 5**

Goods will be invoiced in accordance with our current price list at the moment of shipment. The prices are F.C.A. Barcelona for orders above € 1,500; for orders below € 1,500 goods will be shipped under Ex-Works conditions.
- 6**

Unless otherwise agreed, the payment terms are:
-Irrevocable Letter of Credit at sight
-Advanced Bank Transfer
-Cash Against Documents
- 7**

INDUSTRIAS COSMIC, S.A.U. offers 3 years guarantee, in exception of the indicated in the price list, against raw material and manufacturing defects. The guarantee is valid from the time of purchase by the final customer. To confirm the date of purchase, the invoice of the consumer should be provided. The guarantee consists of the replacement of the defective piece that impedes the regular use of the item, except in case of improper use, incorrect assembly or installation, natural wear and tear, improper maintenance or, chemical, electrochemical or electrical influences. We are not responsible for all the damage brought about by misuse or bad installation of the products and won't accept any indemnities for the replacement of defective pieces or any demands for damage.
- 8**

INDUSTRIAS COSMIC, S.A.U. always try to minimize the customer service time and to meet the lead time requirements on our customers' orders as much as possible. In case we cannot satisfy them, customers will be duly advised.
- 9**

Ordered COSMIC products will be delivered under reservation of title in favour of INDUSTRIAS COSMIC, S.A.U. until all payment obligations by the purchaser have been met in full.
- 10**

In case of outstanding payments, the return and bank expenses are on the purchaser's. INDUSTRIAS COSMIC S.A.U. has the right to block all orders accepted as long as the outstanding payments are not sorted out.
- 11**

In case of claims regarding the interpretation or execution of the herewith sales conditions, will be competent the courts of our head office's jurisdiction.
- 12**

COSMIC provides information on the certifications with which we comply as a manufacturer. It is the responsibility of the fitter to know the local certifications required in the relevant country.

Condiciones de venta

CONDICIONES GENERALES DE VENTA EXPORTACIÓN

- 1**

Las ventas de INDUSTRIAS COSMIC, S.A.U. se realizan según las condiciones generales aquí expuestas y la entrega de cualquier pedido supone la aceptación, por parte del comprador, de dichas condiciones generales de venta.
- 2**

Los productos se pueden modificar, reemplazar o suprimir en todo momento y la información de cualquier naturaleza contenida en nuestros catálogos, tarifas o material publicitario es indicativa.
- 3**

Los pedidos recibidos directamente de los clientes o realizados por nuestros representantes en nombre de ellos siempre estarán sujetos a nuestra aceptación. INDUSTRIAS COSMIC, S.A.U. da por confirmados todos los pedidos recibidos y, si no hay notificación específica se entenderán como aceptados.
- 4**

Ningún pedido aceptado por nosotros se podrá retractar ni anular sin nuestra aceptación. El cliente, por su parte, no podrá efectuar ninguna devolución de mercancía sin nuestro consentimiento previo.
- 5**

La mercancía será facturada de acuerdo con nuestra tarifa vigente en el momento del envío. Los precios serán F.C.A. Barcelona para pedidos superiores a 1.500€. Los pedidos inferiores a 1.500€ serán enviados ExWorks.
- 6**

De no existir otro acuerdo, las condiciones de pago serán:
-Letra de crédito irrevocable a la vista
-Transferencia por avanzado
-Contado contra documento
- 7**

INDUSTRIAS COSMIC, S.A.U. ofrece una garantía de 3 años, excepto en los casos indicados en la tarifa, contra todos los defectos de materia prima y fabricación válida a partir del momento de adquisición por parte del cliente final. A fin de determinar la fecha de adquisición será imprescindible la presentación de la factura de compra. Esta garantía consistirá en la sustitución de la pieza que determine su irregular funcionamiento, salvo por razones de uso inadecuado, montaje o instalación incorrectos, mantenimiento indebido, desgaste del uso diario o defectos provocados por reacciones químicas, electroquímicas o eléctricas. La garantía excluye de responsabilidad a INDUSTRIAS COSMIC, S.A.U. de todas las consecuencias derivadas del funcionamiento o instalación de nuestros productos y esta no reconoce ninguna indemnización por la sustitución de artículos defectuosos ni demanda por daños y perjuicios.
- 8**

INDUSTRIAS COSMIC, S.A.U. intenta siempre reducir al máximo los tiempos de servicio al cliente, ajustándose en lo posible a los requisitos de plazo solicitados expresamente en el pedido y, en caso de no poder satisfacerlos, se enviará una notificación.
- 9**

Los productos marca COSMIC, objeto de pedido, se entregarán bajo reserva de dominio a favor de INDUSTRIAS COSMIC, S.A.U. hasta el total cumplimiento de las obligaciones de pago por parte del comprador.
- 10**

En caso de impagados, se incurre en un cargo por devolución, más los gastos de financiación actuales en el mercado. INDUSTRIAS COSMIC, S.A.U. se reserva el derecho de retener los pedidos en curso hasta solucionar los efectos pendientes.
- 11**

Las disputas referentes a la interpretación o a la ejecución de estas condiciones generales de venta pasarán a ser competencia de los tribunales de nuestra jurisdicción.
- 12**

COSMIC aporta la Información de las certificaciones que cumplimos como fabricantes. Es responsabilidad de los instaladores conocer las certificaciones necesarias en cada país.
